

Capability Manager - Information Assurance UK Government and Defence Markets To £60,000 + bonus and benefits

Firmly established as a 'centre of excellence' in its field, our retained client is a world leader in the design, development, manufacture and support of high technology products and tailor-made solutions for a prestigious portfolio of government agencies and defence organisations worldwide.

Now, with the backing of a major £15bn pa parent and having enjoyed a period of continued growth, our client wants to capitalise on significant technological and product advances in order to dominate the expanding markets. In line with these plans they wish to appoint a Capability Manager to lead the development and

lifecycle of their Information Assurance products and capabilities, in turn offering the successful candidate the opportunity to become a key player in an exciting future.

In this role you will manage the portfolio and complete lifecycle of products within the Information Assurance segment and by creating and sustaining competitive solutions that will ensure long term success. With continual market analysis, you will identify and interpret the customer needs, translating them into defined product roadmaps and marketing strategies ensuring the business remains at the top of its game.

You will be qualified with a business or relevant technical degree and have demonstrable experience of success within the Information Assurance sector, with particular focus on Government and Defence domains. With product management experience and as a strong communicator with excellent relationship building skills, you will be results focused and possess the drive and enthusiasm that gets results.

To apply, call Richard Coleman, Managing Consultant - Defence & Homeland Security on +44(0)1293 802038 or email defence@psdgroup.com quoting ref: 406850.
